## What Is BION®?

• **BION®** Odor Neutralizer/Cleaner is a new concept in cleaning and elimination of unpleasant and offensive odors. It is based on a complex blend of natural essential oils which are derived from plants and produce the unique **BION®** fragrance.

## Why Is BION® Different?

- **BION®** is natural, safe, non-toxic, can be used virtually anywhere, and it is very economical.
- **BION®** can be sprayed into the air, or for longer lasting odor control can be sprayed directly on any washable surface. **BION®** can also be added to water to produce a cleaning solution that keeps any surface clean and odor free.
- **BION®** is successfully and safely used without any negative environmental consequences.

## How Does BION® Work?

- **BION®** works by a natural bond like attraction which inactivates bad odors on contact. It has a residual action without obtrusive odor for long lasting odor control.
- **BION®** neutralizes a wide range of offensive odors.

## Where Can BION® Be Used?

Restaurants

Hotels

Hospitals

Kitchens

Food Markets

Schools

Nursing Homes

or

**ANYWHERE**  
odor is a problem!
